

VH-COMSAVAC HBV vaccination strategies: experience from Barcelona

VIRAL HEPATITIS
COMSAVAC

Multi-Country Community
Screening, Vaccination,
and Care

Camila Picchio, PhD, MPH
camila.picchio@isglobal.org

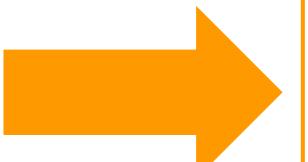

Project Objective

Multi-Country Community
Screening, Vaccination,
and Care

**Hepatitis B virus COMmunity
Screening and Vaccination in
Africans (HBV-COMSAVA)**

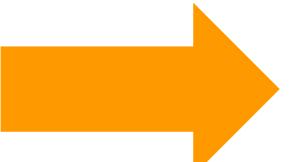

Nov 2020 - Dec 2022

**Multi-country Viral Hepatitis
COMmunity Screening,
Vaccination, and Care
(VH-COMSAVAC)**

Dec 2022 - May 2025

Project in Catalonia

**Expanded to other settings in Catalonia, Madrid,
Italy and Greece with the support of the EU**

Project Objective

Multi-Country Community
Screening, Vaccination,
and Care

Multi-country Viral Hepatitis COMmunity Screening, Vaccination, and Care (VH-COMSAVAC)

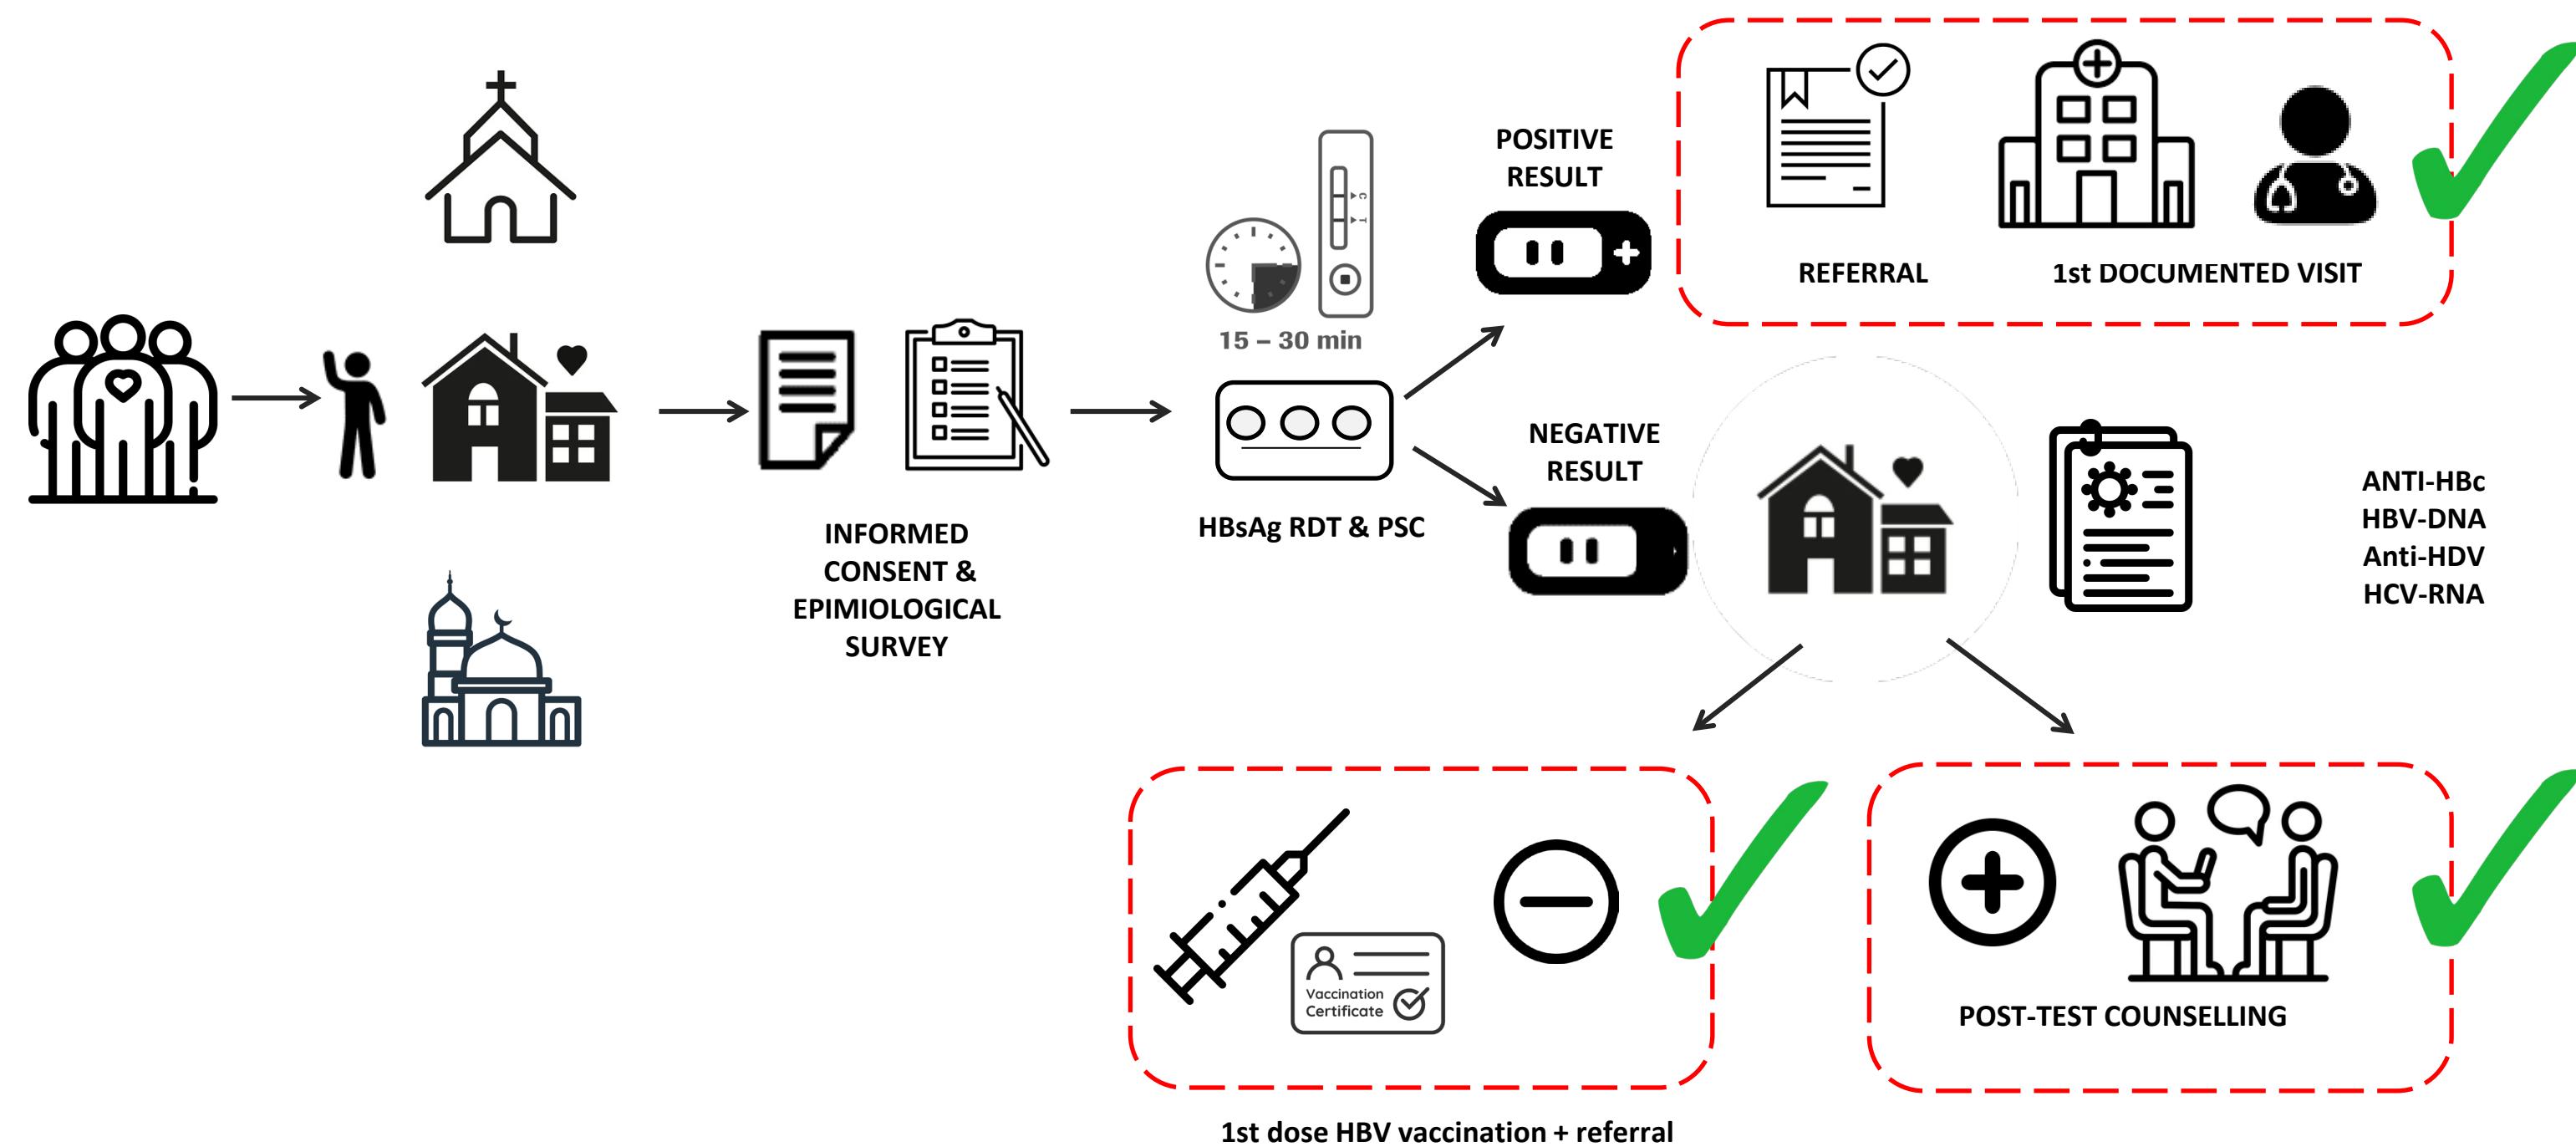

Primary objective

Scale-up and adapt community-based viral hepatitis (HBV and HCV) testing and HBV vaccination models of care among marginalised populations with documented high HBV and HCV incidence and prevalence using simplified diagnostic tools and patient-centred referral processes to reduce liver cancer-associated mortality.

Implementation Process

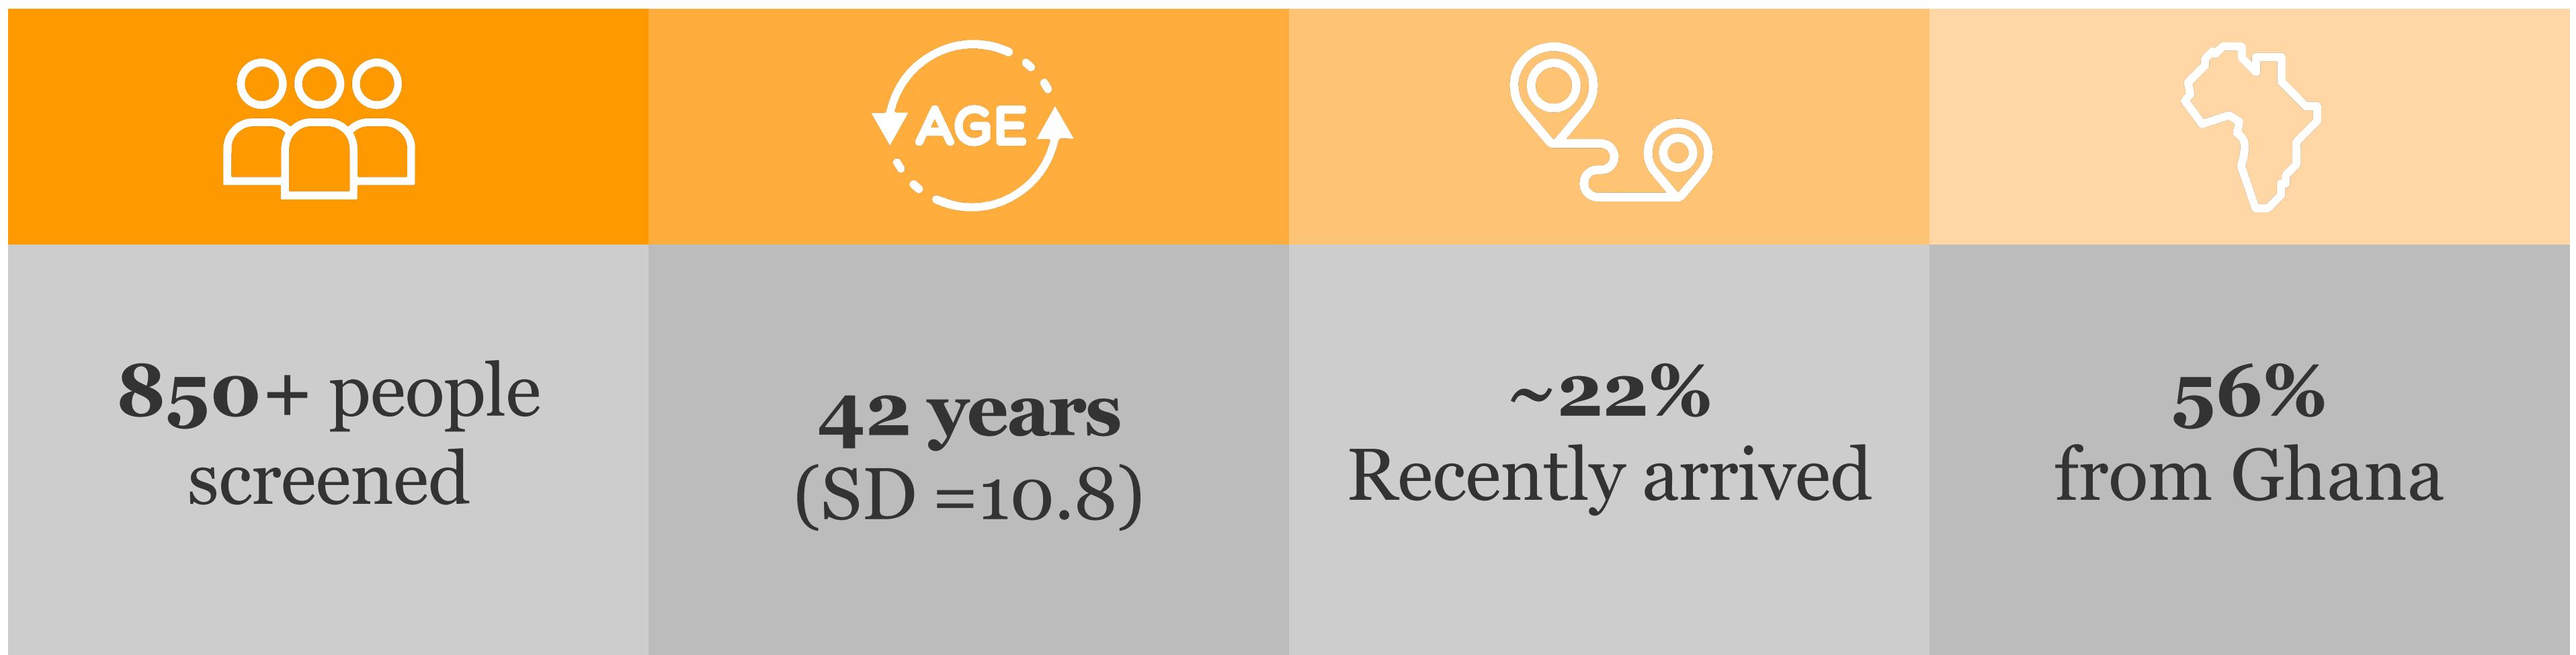

Multi-Country Community
Screening, Vaccination,
and Care

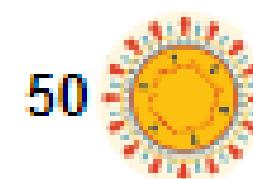

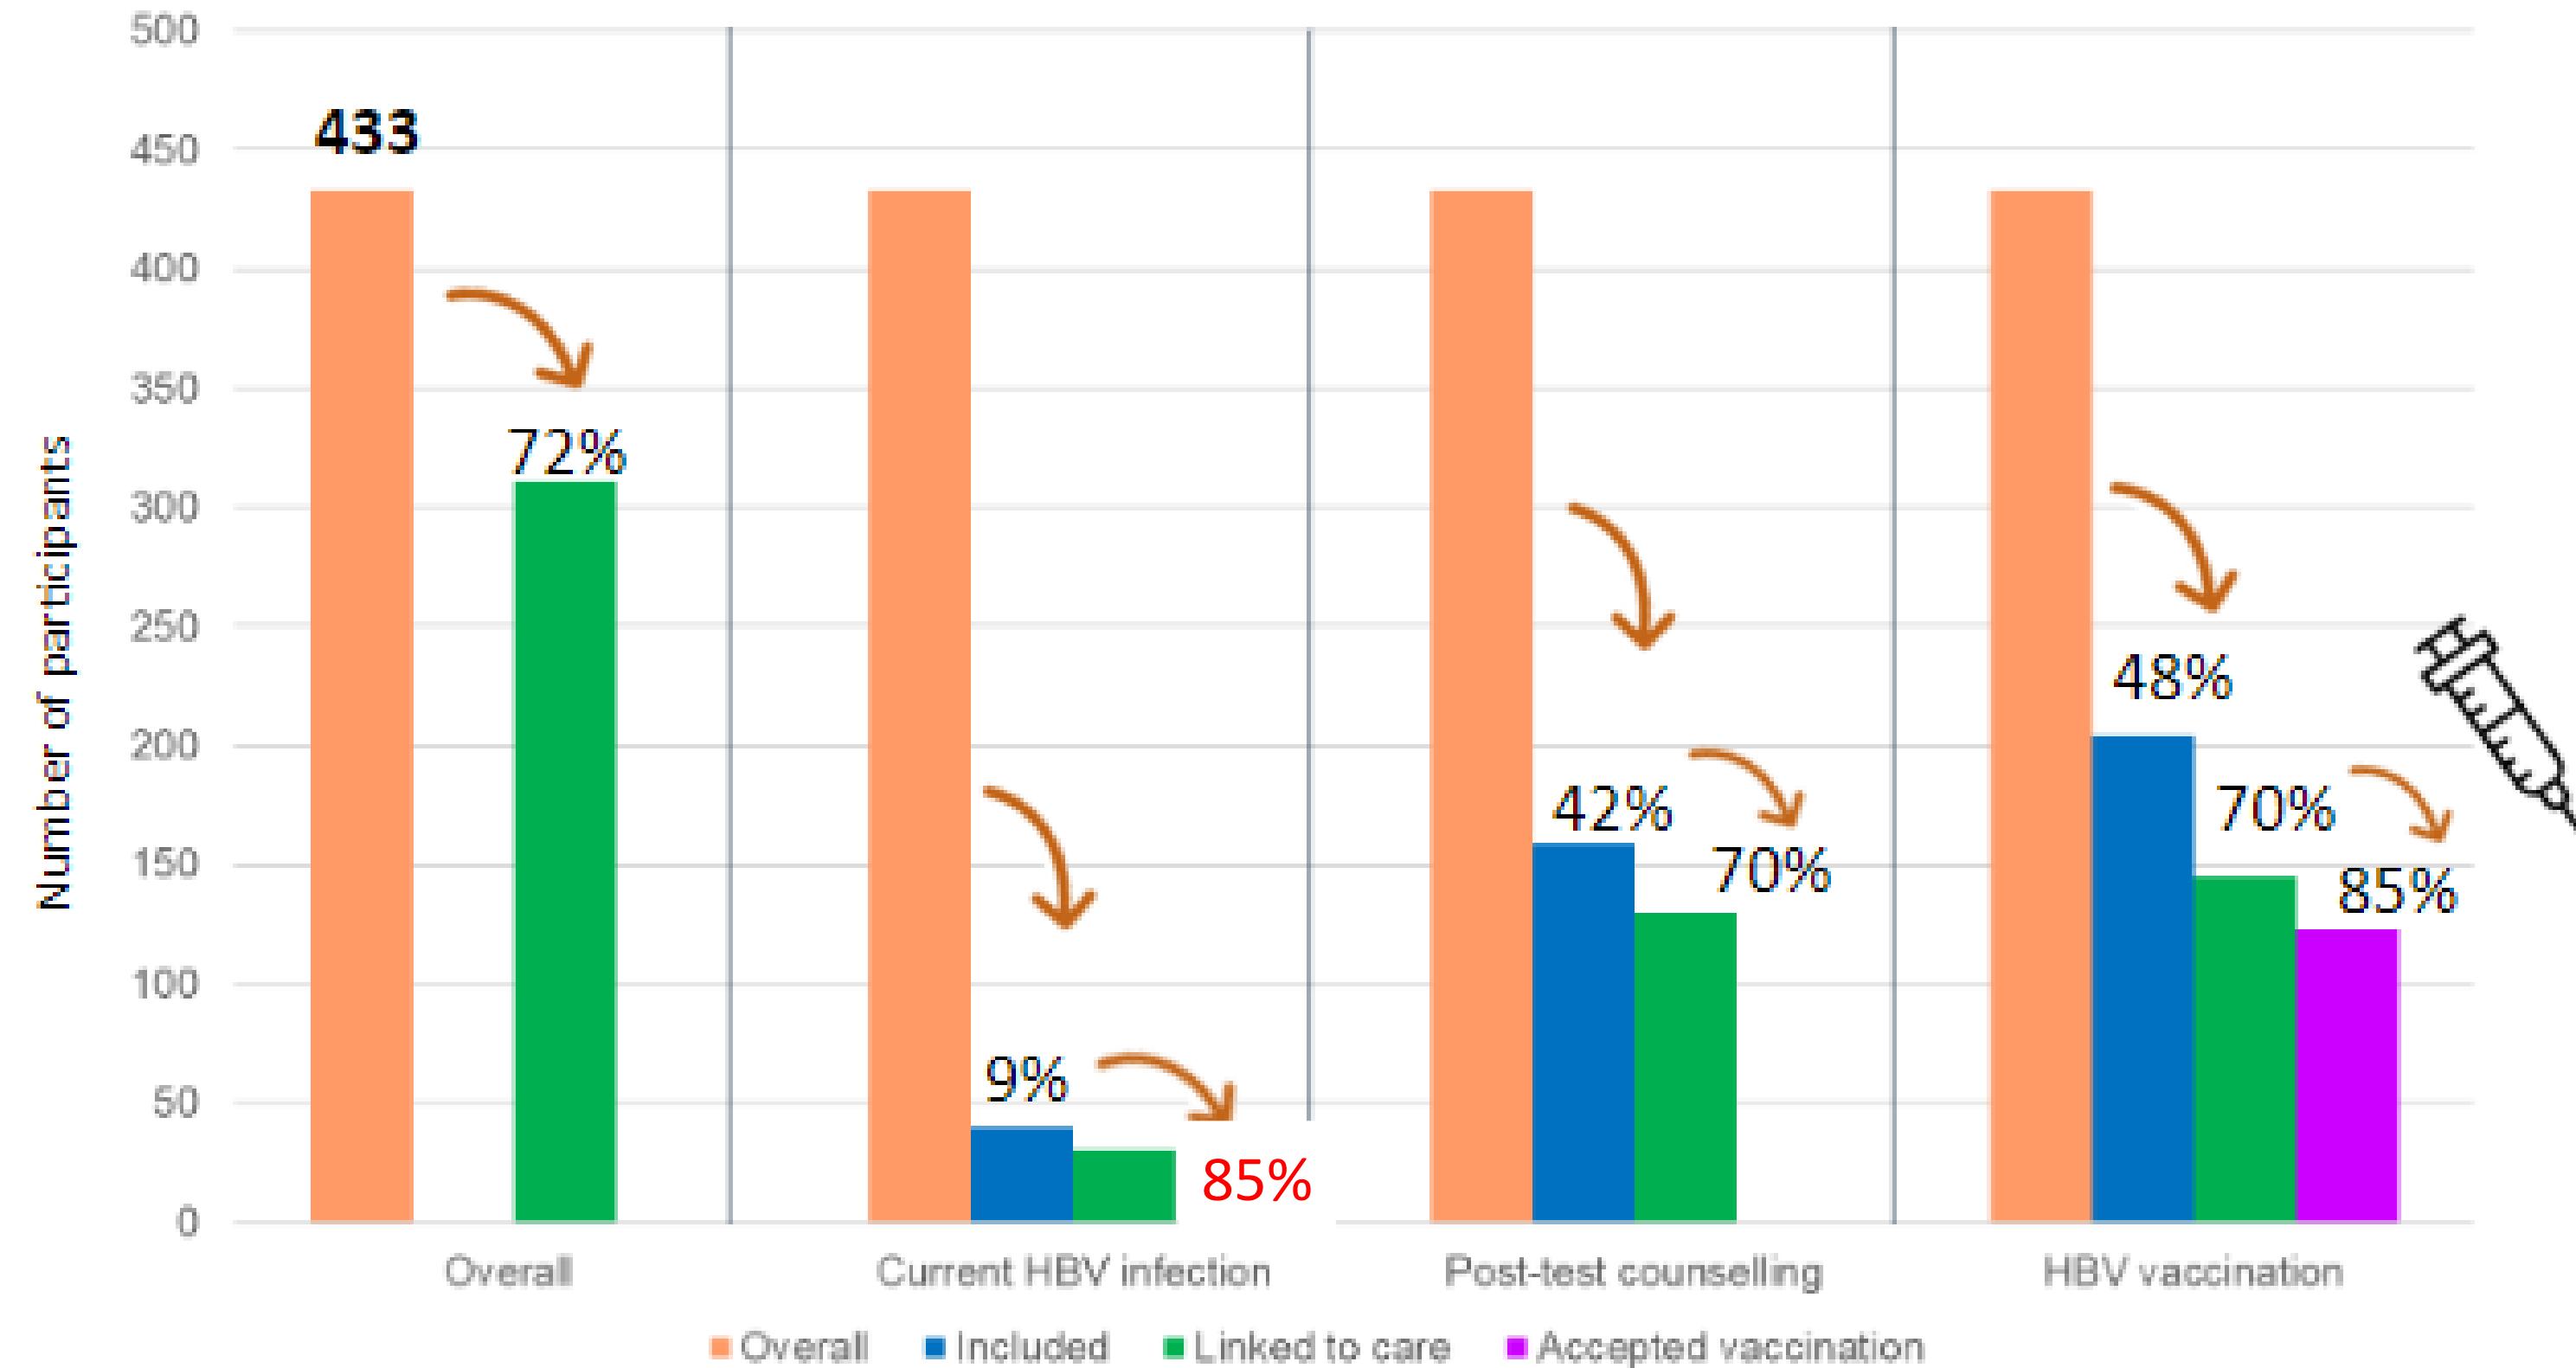

ISGlobal's experience

Hepatitis B Virus COMmunity Screening and Vaccination in Africans (HBV-COMSAVA). Nov 2020- actualitat.

Prevalença del 9.2% de infecció actual del VHB
en comparació amb una prevalença del 0,52% en la població general de Catalunya
(Rodriguez-Tajes *et al.* 2020)
