

Vlaanderen

is zorgzaam en
gezond samenleven

Flanders' mobile vaccination team

26/03/2024

Goals and composition

To outreach to special communities (child-adult)

- ✓ Schools that have no school health service
- ✓ Roma, asylum seekers, homeless people, refugees
- ✓ Disadvantaged people

To be engaged in case of outbreak

- ✓ measles in prison, hepatitis A in daycare,..

1 physician and 2-3 nurses (+ flexible extension)

Self-organising team

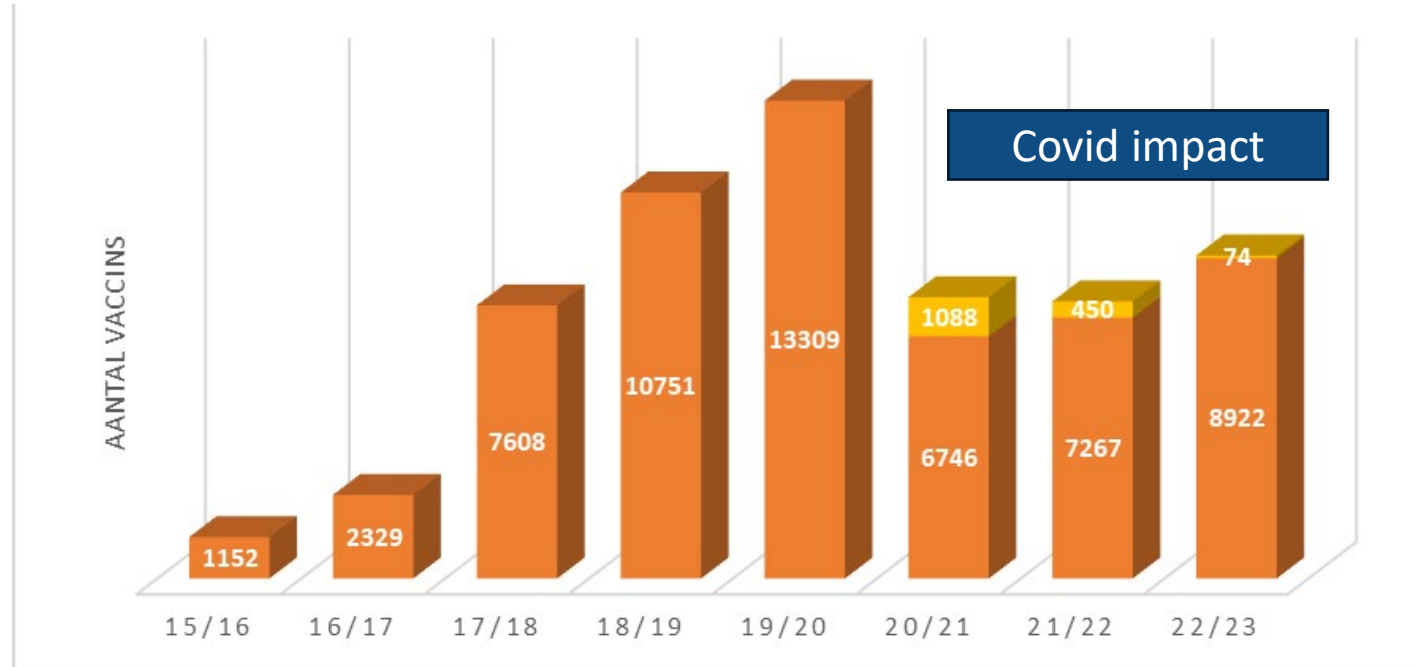

Approach

- ▶ networking & building trust: 4 years work
- ▶ Adapt to target population and changing needs
 - Offer: eg flu vaccine as first in homeless people
 - Location: e.g. meals; courses
 - Frequency: several visits per year
 - Promotion: toilet doors!
 - Visible: eg bathroom, eating place (to see = to accept)

>280 visits/year from Y5 onward

Flanders= about 6 million people
COVID impact on strategy: “come to see if you got all your vaccines.
Then decide if you want any. It is possible today”
